Feature Highlights

LCD

■ Resistive Touch Screen

DURABOOK™ uses most advance Resistive Touch Technology to provide mobile users with flexibility and convenience to fit your specific application. DURABOOK™ Resistive Touch Screen accommodates gloved-finger operations.

■ Sunlight Readable

DURABOOK™ deploys the most advance and creative Sunlight Readable technology solutions for the unparalleled results. DURABOOK™ Sunlight Readable solution incorporates Anti-Reflection technology as well as enhanced brightness LED backlight to achieve superior sunlight readability. DURABOOK™ enables sunlight readability with power consumption in mind to offer users with the most operating time under the Sun.

■ LCD Impact Protection

DURABOOK™ specially designed an LCD to withstand pressure from a force of 3kg over 1cm². This special feature adds ruggedness and durability to the LCD and further sets DURABOOK™ apart from the rest.

Security

■ TPM

Trusted Platform Module (TPM) security option defends against hard-drive removal data-leak. This must-have security feature comes standard on all DURABOOK™ products.

■ Smart Card Reader

DURABOOK™ offers the unique secure identification verification tool to safeguard sensitive data and provide levels of secure access to with Smart Card identification.

Design and Features

DURABOOK™ notebooks has passed US Military Standard MIL - STD 810G drop and vibration tests. These tests ensure that DURABOOK™ products are up to the challenges of demanding usages for your intended application and environment.

■ Magnesium Alloy Case

Each DURABOOK™ is built with magnesium alloy case that is 20-times stronger than ABS plastic to assure superior resistant from exterior impact like bumps, drops and knocks.

■ Shock-resistant LCD

Prevent damage to the costly LCD display. Internal dampers prevent damage by absorbing shock and sudden impact.

■ Optical Drive Lock

DURABOOK™ offers exclusive, proprietary optical drive lock design to help ensure your CD/DVD drive will not eject during drop or vibration. This unique feature protects the optical disk from damages, scratches and intermittent read-drive skipping.

■ Shock-mounted Hard Disk Drive

All DURABOOK™ hard disk drives are mounted in shock-absorbing polymer compounds insulating the HDD from vibration and shock while protecting your mission critical data.

■ Graphic Engine nVidia N11M GE2-S

S15C optional discrete graphic nVidia N11M GE2-S with 512MB DDRIII VRAM boosts the graphic processing power for special applications like Geographic Information System.

■ GPS

For the on-the-road and off-the-road users, DURABOOK™ offers cost effective integrated GPS option for accurate location tracking and to give users the geo-location peace of mind.

■ 3G

DURABOOK™ 3G keeps you connected wherever you go. With 3G option enabled, the mobile user is able to access work email and enjoy all the benefits of being connected to the internet.

■ Waterproof Keyboard

DURABOOK™ keyboards are specially designed to withstand water soak and is capable of functioning even under spillages.

■ Waterproof Touchpad

DURABOOK™ designed the waterproof touchpad to truly protect from water spillage and to ensure that all input devices are capable of function under real world conditions.

Applied Applications

- Government
- Military
- Education
- Field Service/Utility
- Emergency
- Police
- Healthcare
- Transportation

Quality Excellence

At Twinhead total quality assurance is achieved through high standard processes, with a special emphasis on the small details that foster customer satisfaction. Twinhead maintains state-of-the-art testing facilities with industry leading test equipments to challenge DURABOOK™ machines in extended real world conditions.

Twinhead's quality assurance program focuses on clear reliability standards, compatibility testing, and production progress control to ensure DURABOOK™ products are prepared for live rugged environments to exceed customer satisfaction in field performances.
